## YOUR FACILITATORS:

**Foster Perry**

Has travelled the world studying, teaching and practicing the joy of self-healing for 40 years. After graduating from Georgetown University, he moved to New York City to study art, design and psychology. It was there that his life reached a turning point when he was struck by lightning. This event served as Foster's calling, compelling him to leave his life, his family, and his friends and embark on a life long study of spiritual traditions and practices around the world. Foster studied ritual, ceremony and healing with Shamans in the southwestern United States and South America. He now synthesizes his extensive knowledge of Native American, South American, Asian and European healing traditions with spiritual practices into what has come to be known as Hummingbird Medicine, a transformative teaching modality. Hummingbird Medicine aids the participants in healing their wounds, and releasing their fears, freeing them to experience again their love, their life, and their divine joy. Foster works as a ceremonial leader, workshop facilitator, author and recording artist and his Hummingbird Healing Technique has earned him respect around the world.

**Kristos Tsompanelis**

Several years ago, he was led by certain teachers to go back to his Seeing abilities, to give workshops, lectures, and write for several magazines. As well as being a musician with interests in world music, he has started composing and has produced commercial music. He has been working for 20 years in spiritual development, teaching seminars, working with homeopathy, other teachers, artists, and doctors as a medical clairvoyant.
